

Preventing Crime While Showing Your Home!

While selling your home you open your doors and your possessions to prospective buyers.

- I. Make sure cash, jewelry or portable electronics aren't left out in the open.*
- II. Secure financial documents including but not limited to, checkbooks, bank statements, credit cards, and anything that could be used to obtain your identity.*
- III. Keep valuables and breakables out of walkways to avoid accidental breakage.*
- IV. Keep your keys out of plain view.*

Most potential buyers are honest and respectful citizens, yet it never hurts to prepare and prevent rather than to repair and repent.
